

## Join Our Team!

Groundwork Studio is hiring a landscape architect. As a relatively small and highly creative studio, we are looking for people who are flexible and can complete a variety of different tasks successfully with a positive attitude. Our approach emphasizes a high level of collaboration within our team and with our clients, prioritizing community-led outcomes.

Interested candidates can get a feel for our vibe by visiting our website and some of our current projects:

Requirements:

- Licensed Landscape Architect in the State of NM
- Minimum four years working in a landscape design office setting with daily experience in AutoCAD, Adobe Creative Suite (primarily Photoshop, Illustrator and InDesign) and the MS office suite.
- Project management experience, including contract administration, subconsultant coordination, and construction administration

Individuals without a license who meet the experience requirements will be considered.
