

**Margaret (Peggy) Darr**, NM State Representative for Defenders of Wildlife

Peggy is a wildlife biologist with expertise in ornithology, endangered species conservation, and ecological restoration. She is the lead author, or co-author, of numerous documents designed to help landowners better manage their property for the benefit of wildlife and healthy ecosystems. As the New Mexico Representative for Defenders of Wildlife, she works on wildlife conservation and coexistence projects throughout the state.

Peggy is presenting the following:

**Beavers & Fireflies: Open Space Management for Positive Results**

Friday, October 28, 9:45 – 10:45 am
