

Numair Latif, numair@unm.edu, is an educator, applied scientist, and environmental planner. Throughout his career, his focus has been on earth science, climate resilience, and historic preservation. As an educator, Numair has utilized these concepts to engage middle school, high school, and college students in hands-on Project Based Learning (PBL) strategies that can be applied to all subject areas and be taught in and out of the classroom. He is working to create alternative learning spaces that promote environmental conservation within the local and regional community, through Project Based Learning.

Numair is presenting the following:

Creating Alternative Learning Spaces for Effective STEAM Education (lightning session)

Friday, October 28, 10:00 – 11:15 am
